

# PostAuthorizationResponse Class

Response sent by the payment gateway adapter for a postauthorization service.

## Namespace

CommercePayments

## Usage

This class extends [AbstractTransactionResponse](#). The constructor of this class takes no arguments. For example:

```
CommercePayments.PostAuthorizationResponse authr = new
CommercePayments.PostAuthorizationResponse();
```

Contains information about the payment gateway's response following an authorization transaction. The gateway adapter uses the payment gateway's response to populate the `PostAuthorizationResponse` fields. The payments platform uses the information from this class to settle the transaction.

- [PostAuthorizationResponse Methods](#)  
Lists the methods for the `PostAuthorizationResponse`.
