

# ConnectApi Namespace

The `ConnectApi` namespace (also called Connect in Apex) provides classes for accessing the same data available in Connect REST API. Use Connect in Apex to create custom experiences in Salesforce.

For information about working with the `ConnectApi` classes, see [Connect in Apex](#).

- [ActionLinks Class](#)  
Create, delete, and get information about an action link group definition; get information about an action link group; get action link diagnostic information.
- [Announcements Class](#)  
Access information about announcements and post announcements.
- [BotVersionActivation Class](#)  
Access and update activation information of a bot version.
- [CdpActivation Class](#)  
Get, create, update, and delete Data Cloud activations.
- [CdpActivationTarget Class](#)  
Get, create, and update Data Cloud activation targets.
- [CdpAudienceDMO Class](#)  
Get activation records from Data Cloud Audience Data Model Objects (DMOs).
- [CdpCalculatedInsight Class](#)  
Create, delete, get, run, and update Data Cloud calculated insights.
- [CdpConnection Class](#)  
Get database schemas for a Data Cloud connection.
- [CdpDataSpace Class](#)  
Get Data Cloud data spaces.
- [CdpDataStreams Class](#)  
Run Data Cloud data streams.
- [CdpIdentityResolution Class](#)  
Create, delete, get, run, and update Data Cloud identity resolution rulesets.
- [CdpMachineLearning Class](#)  
Make a machine-learning prediction with Data Cloud.
- [CdpQuery Class](#)  
Get Data Cloud metadata and query data.
- [CdpSegment Class](#)  
Create, delete, get, publish, and update Data Cloud segments.
- [Chatter Class](#)  
Access information about followers and subscriptions for records.
- [ChatterFavorites Class](#)  
Chatter favorites give you easy access to topics, list views, and feed searches.
- [ChatterFeeds Class](#)  
Get, post, and delete feed elements, likes, comments, and bookmarks. You can also search feed elements, share feed elements, and vote on polls.
- [ChatterGroups Class](#)  
Information about groups, such as the group's members, photo, and the groups the specified user is a member of. Add members to a group, remove members, and change the group photo.
- [ChatterMessages Class](#)  
Get, send, search, and reply to private messages. You can also get and search private conversations, mark conversations as read, and get a count of unread private messages.

- **CommerceBuyerExperience Class**  
Create, delete, or get commerce addresses. Get order delivery group, order item, order shipments, shipment items, and order summaries. Get adjustments for order items and order summaries.
- **CommerceCart Class**  
Get, create, update, calculate, and delete carts. Get cart items, add items to carts, update and delete cart items.
- **CommerceCatalog Class**  
Get products, product categories, and product category paths.
- **CommerceCatalogManagement Class**  
Create or update a composite product. Create a variation product.
- **CommercePromotions Class**  
Evaluate promotions for Commerce orders. Get coupon code redemption usage.
- **CommerceSearch Class**  
Get sort rules for the live search index. Get product search suggestions. Search products.
- **CommerceSearchConnectFamily Class**  
Search products by search term or category in a webstore.
- **CommerceSearchSettings Class**  
Get indexes. Get index logs. Create an index of a product catalog.
- **CommerceStorePricing Class**  
Get product prices.
- **CommerceWishlist Class**  
Get, create, update, and delete wishlists. Add wishlists to carts. Get wishlist items, add items to wishlists, and delete wishlist items.
- **Communities Class**  
Get information about Experience Cloud sites in your org.
- **CommunityModeration Class**  
Get information about flagged feed items and comments in an Experience Cloud site. Add and remove flags from comments and feed items.
- **ContentHub Class**  
Access Files Connect repositories and their files and folders.
- **ConversationApplicationDefinition Class**  
Access information about a conversation application definition.
- **Datacloud Class**  
Purchase Data.com contact or company records, and retrieve purchase information.
