

ConnectApi Exceptions

The `ConnectApi` namespace contains exception classes.

All exceptions classes support built-in methods for returning the error message and exception type. See [Exception Class and Built-In Exceptions](#).

The `ConnectApi` namespace contains these exceptions:

Exception	Description
<code>ConnectApi.ConnectApiException</code>	Any logic error in the way your application is utilizing <code>ConnectApi</code> code. This is equivalent to receiving a 400 error from Connect REST API.
<code>ConnectApi.NotFoundException</code>	Any issues with the specified resource being found. This is equivalent to receiving a 404 error from Connect REST API.
<code>ConnectApi.RateLimitException</code>	When you exceed the rate limit. This is equivalent to receiving a 503 Service Unavailable error from Connect REST API.
